

Sheboygan County “Love Your Neighbor Workcamp” - June 21-27, 2020
Confidential Application for Home Improvement
Website: fountainparkumc.org

Dear Sheboygan County Neighbor,

We are very excited to offer the opportunity for volunteer home improvement assistance to you. Our Workcamp is an intensive 1-week trip that help people grow in Christian faith through service. The work will be performed by youth and adult volunteers who will come to Sheboygan from around the country as members of Christian youth groups. Youth groups with their adult leaders of many Christian denominations will spend the week in our community performing hands on projects for aging adults, low income and/or those who are physically unable. However, there are a few things you need to know before you fill out an application.

If your home is chosen as a site:

- The selection of work must keep a crew of 6 people busy for 3.5 – 4.5 days.
- The volunteers assigned to your home will be interested in you and want to spend time getting acquainted with you (and your family) during the week! You could grow to think of them as an extension of your family.
- You agree to be or have another responsible adult, at home all week while the Work campers are at your residence.
- You agree to provide water, a restroom and electricity.
- You agree to provide a safe environment for all. Unacceptable circumstances include (but not limited to) the presence of firearms, illegal drugs, alcohol abuse, domestic violence, pornography, profane language or conversation and unsanitary living conditions.
- We will agree upon what work will be done. It is possible that we plan to do a variety of small projects on your home; the volunteers will complete as many of them as they can during the camp week.

The projects are performed affordably or at no cost to you. These projects are supported by:

- Campers participation fees (the volunteers pay to participate) & Group Mission Trips
- Generous Community donations

Filling out an application does not guarantee that you will be selected to have any work done on your home. We will be selecting project sites based upon the nature of the work requested and degree of assistance needed.

As we receive applications, we will be contacting homeowners who qualify by phone. A background check/sex offender registry will be conducted for all adults living at the residence. In spring of 2020 we will arrange a home visit to make final selections. You will be notified after all selections are made.

If you agree to the above conditions, please fill out the attached application and return to:
